It is the responsibility of the facility's motor pool, safety coordinator or designee to ensure that all requirements are fulfilled by an employee to be assigned a permanent state vehicle, especially under the conditions stated in section (1)(A), where the individual must travel a minimum of 15,000 miles per year. Gross abuse of any stated requirements should be reported up to the facility superintendent level. He or she should then report to the division director. The division director should report to the department director, because it is stated that the "department director must determine if there is a compelling benefit to the state and document in writing that he or she support and approve of the assignment." Similarly, an employee's request for a permanently assigned state vehicle must be approved by the facility superintendent prior to it being routed up to the division director's level.
